## How to read a paper on your PC

Bachelorprojekt på den Hulm Schultz 54926_6213.zip 78,1 kB — arcanic.dk — 13:33  Show All Downloads	Download and unzip the document(s). Click on a file name to open the document in the pdf reader (Adobe Acrobat recommended).
Tools Comment Share  * Annotations  ** Annotations  ** Annotations  ** Annotations  ** Annotations  ** Annotations	Click on the tab "Comment" (top right). Click on "Annotations". Select tools (highlight, post-it, etc.) as you work through the document.  Remember to save the annotated document.
Find  Find  Simonhei * Page 6 15-09-2015 09:56:58 Her mangler en definition på begrebet	Click on "Comments list" for an overview of your annotations. Note: The entries serve as links to the annotated passages in the document.
Ind  Expand All  Collapse All  Print with Comment Summary  Create Comment Summary	Optional: Print your annotations: Click on the "Options" icon (to the right), and select from the drop-down-menu: "Create Comment Summary".
Cheese a Layout  Document and comments with connector lines on separate pages  Document and comments with connector lines on single pages  Comments only  Document and comments with sequence numbers on single pages  Pager Soc.  All   Soc comments by:  Fage	Adjust the layout (paper format, sort order, etc.), and click on "Create Comment Summary".
Summary of Comments on Micros Bioanalytikeruddannelsen_sulmit Page: 6  ***********************************	Output is a pdf-file that can be printed or mailed to your co-examiner and/or used as a draft for feedback to the students. Feedback should be given in DE by uploading the annotated file (see below) or by pasting your annotations into the feedback pop-up window.
Upload (Hovedopgave)	Optional: Upload the annotated file to DE: Select "Upload" from the drop-down menu ("Read in browser"), and locate file on PC.
	Note: File to be uploaded must have exactly the same name as the one downloaded (after being unzipped). The uploaded file will overwrite the original.
